A SCROFULOUS BOY

Running Sores Covered His Body and Head. Bones Affected.

Cured by CUTICURA Remedies.

When six months old, the little boy began to swell, and had every appearance of a large boil. We put it out, but all to no purpose. About five months later, it became a running sore. Soon other sores formed. He then had two of them on each leg, and as his blood became more and more impure, it took less time for them to break out. A sore came on the chin, beneath the lower lip, which was very offensive. His mother was one of the best of mothers, and was very anxious to cure him. She had heard of CUTICURA, and bought a box of it. She used it as directed, and in a few days the sores began to heal. In a week the sores were all healed, and the boy was as healthy as a horse. He is now a fine, robust boy, and is a credit to his mother. He is now a fine, robust boy, and is a credit to his mother.
